

# Makita<sup>®</sup> 2" ROTARY HAMMER

## ANTI-VIBRATION TECHNOLOGY FOR INCREASED END-USER COMFORT

Dual Mode Operation "Hammering with Rotation & Hammering Only" for Multiple Applications

Electronic Speed Control Reduces Speed Loss when Working in Heavy Applications to Ensure Maximum Productivity

Extended Service Life of Carbon Brushes is Greater than Twice that of Competitive Models

**AVT**  
ANTI VIBRATION TECHNOLOGY

**Model**  
**HR5210C**

## INNOVATION

AVT (Anti-Vibration Technology) active dynamic vibration absorber ensures extra-low vibration performance

## PERFORMANCE

Electronic variable speed control by dial as well as L.E.D. lights that indicate brush wear and electrical circuit problems

## DURABILITY

Built-in torque limiter ensures stable torque control

## POWER

Synchronized RPM and BPM prevents overlapping impacts for up to 50% more efficient drilling

# OUTPERFORMS THE REST

# 2" ROTARY HAMMER

## Model HR5210C

### FEATURES & BENEFITS

- Powerful 15 AMP motor; 1,075 - 2,150 BPM to handle the most demanding jobs
- No hammering while idling ensures longer life and greater performance of the tool
- One touch sliding chuck allows for quick bit changes increasing end-user productivity
- Soft grip provides more comfort and greater control when operating the tool
- Recessed operation mode switch helps prevent it from being damaged
- Built-in torque limiter ensures stable torque control

### STANDARD EQUIPMENT

- Side handle (158131-0)
- D-handle (417003-1)
- Depth gauge (321248-4)
- Plastic tool case (158275-6)
- Bit grease (181573-3)

### SPECIFICATIONS

Capacities: Concrete	2"
Core bit	6-1/4"
No load speed (RPM)	0 - 260
Blows per minute (BPM)	1,075 - 2,150
AMPS (110V)	15.0
Overall length	23-1/2"
Net weight	25.6 lbs.

### OPTIONAL ACCESSORIES

#### SDS-Max Bits - 4 Cutter

- 4-Cutter technology for reduced friction and rapid dust removal
- Central guiding action for accurate holes
- Constructed to reduce vibration and noise emissions
- Made of the highest quality chrome-nickel-molybdenum steel
- Special impact-grade carbide

#### Modular Heavy-Duty Core Bit System

- For use in reinforced and non-reinforced concrete, block, brick, etc.
- Specially designed carbide tip geometry for increased penetration
- Core body length: 6"
- Usable drilling depth: 4-3/8"
- From 1" to 5" diameter

Makita offers a wide variety of Rotary Hammer accessories. For a complete listing, please refer to the Makita General Catalog, or visit our website at [makitatools.com](http://makitatools.com), or call 1-800-4MAKITA.

All specifications subject to change without prior notice. All models and accessories subject to stock on hand.
